Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only one of the highest-ranking of these boundaries.

A ¹ following a place name indicates that the place is also a false MCD; the MCD name is not shown.

In 1990, the census of vessels population of ships at sea was allocated to census tracts with a "99" suffix. An another symbol appeared on the 1990 maps locating a census-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

A ² following a block number indicates that the block number is repeated elsewhere in the block.

ABBREVIATION REFERENCE: AIR = American Indian Reservation; Trust Land = Off-Reservation Trust Land; TJS = Tribal Jurisdiction Statistical Area; TDSA = Tribal Designated Statistical Area; ANVSA = Alaska Native Village Statistical Area; ANRC = Alaska Native Regional Corporation; CCD = Census Civil Division; CDP = Census Designated Place; BNA = Block Numbering Area

FEATURES

The diagram illustrates various types of boundaries and their corresponding symbols:

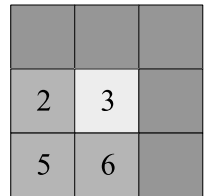

- Highway:** Represented by a solid black line.
- Pipe/Power Line:** Represented by a dashed line with small circles at intervals.
- Stream/Shoreline:** Represented by a wavy blue line.
- Secondary Road:** Represented by a solid black line with short perpendicular tick marks.
- Ridge/Physical Feature:** Represented by a solid black line with small triangles pointing outwards.
- Intermittent Stream:** Represented by a dashed blue line.
- Jep. Trail/Highway/Ferry:** Represented by a solid black line with small circles at intervals.
- Property/Fence Line:** Represented by a solid black line with small squares at intervals.
- River:** Represented by a solid blue line.
- Railroad:** Represented by a solid black line with cross-ticks.
- Visible Boundary:** Represented by a solid black line with small triangles pointing inwards.
- Glacier:** Represented by a wavy blue line with small triangles pointing inwards.
- Military:** Represented by a dashed blue line with small squares at intervals.
- Inset:** Represented by a solid black line with small squares at intervals.
- Out Area:** Represented by a solid black line with small squares at intervals.

¹ A *° following a place name indicates that the place is also a false MCD.

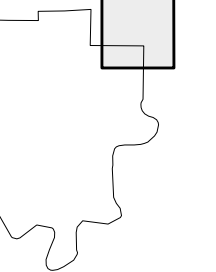

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '.99' suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

3 A * * following a block number indicates that the block number is repeated elsewhere in the block.

1990 COUNTY BLOCK MAP (RECREATED)

All legal boundaries and names as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement.
